

United States Bankruptcy Court Southern District of Georgia

CM/ECF Implementation and Training Schedules

The Court has adopted a “staggered” implementation schedule for the CM/ECF project. As the first part of a two-phase implementation process, the initial CM conversion will occur on **Monday, August 1, 2005**. This conversion will impact internal Court operations only and will not allow electronic filing from external users.

The second part of the implementation process, the ECF portion of CM/ECF is scheduled for **September 2005** and will permit the Court to accept electronically filed documents from registered users. Utilizing a “staggered” implementation schedule will allow registered users to file documents electronically in CM/ECF as follows:
